The children enjoy playing in the newly retrofitted house. Thank you to the donors who made this possible! Photo credit: Scoop Anthony.

A Special Announcement

October 2016

Dear friends,

I arrived back in Nepal last month and am pleased to report that life is getting back to normal in our newly retrofitted house. Thanks to our generous donors, we were able to fortify our house, rather than just patch it up like most of our neighbors. The rooms

There is still much work to do. Many people here in Nepal are struggling a year after the earthquakes. The number of direct requests for help we receive has significantly increased since the disaster. The Nepal government response to the earthquake has been slow and ineffective.

This crisis has presented House with Heart with an opportunity to increase our outreach significantly. **I am excited to announce we have started a Capital Campaign to build a second house.** Thanks to the generosity of our lead donors, we have raised just over a \$100,000, which is half of our \$200,000 goal. A special thank you to **David and Donna Joss** who made a very generous leadership gift.

Would you consider making a special gift to help us build the second house and reach our goal of raising \$200,000? With the construction of a new house, we can:

- Admit 10 new children into our family, for a total of 33.
- Provide a free education to children whose parents can't afford it in our new Children's Learning Centre.
- Transition our teenaged children into adulthood with semi-independent living quarters.
- Keep vulnerable girls in school through our Rise Above program.
- Operate a clinic for women with little or no access to healthcare.
- Give community members access to computer training.
- Continue to play a crucial role in identifying and resolving post-earthquake urgent regional needs.

All of our donors will be listed on our Capital Campaign donor page. Gifts of \$500 or more will be acknowledged on a special thank you plaque displayed in the new house.

Thank you for considering joining us in this next big step forward.

With gratitude,
Beverly

P.S. I will send an update on the children next month. Also, please mark your

The new 3-story house has been designed by a female architect working for the local Nepal construction company S.S. Consult in consultation with New Line Structures Inc of New York. New Line has helped us to make sure that all of our buildings can withstand future earthquakes.

Help us raise \$200,000.
